November 27th, 2015

Subject: Eco designed MT Dalmacija delivery and start of commercial exploitation

The delivery of the MT Dalmacija took place on November 27th 2015 in the South Korean shipyard SPP Shipbuilding. MT Dalmacija is a modern eco designed product tanker of 49,900 dwt, and the third in a series of newbuildings delivered from Korean shipyards during 2015. With this delivery, the total capacity of Tankerska Next Generation's fleet will increase to 250,000 dwt, and in the following weeks with the expected delivery of MT Pag the total fleet capacity will rise to 300,000 dwt.

Following this latest delivery Tankerska Next Generation's fleet now has five operational vessels, as MT Dalmacija's commercial exploitation will start immediately with a three year time charter deal at approximately USD 17,750 per day. Charterers have an option to extend the deal for another year at approximately USD 19,750 per day. The employment for MT Dalmacija was secured in late June, it matches the fixture achieved for MT Zoilo in May, and it will further strengthen the financial position of the company.

„Expanding the fleet with MT Dalmacija, a modern eco tanker designed to optimize performance levels will increase the efficiency of overall operations of Tankerska Next Generation. High quality of the newbuilding, and our professional and homogeneous crew will minimize the risks of operations at sea, while the agreed medium term time charter will secure stable cash flow and contribute to the efforts of management to achieve the strategic plans of the company.“

John Karavanić
President of the Management Board
Tankerska Next Generation Inc.

About Tankerska Next Generation (TPNG-R-A):

TANKERSKA NEXT GENERATION Inc. is a joint stock shipping company headquartered in Zadar, Croatia. The Company's strategy is to be a reliable, efficient and responsible provider of seaborne refined petroleum product transportation services. To date, TNG's fleet consists of 6 modern product tankers. Two modern ice class MR2 tankers and three eco designed MR2 tankers at sea, with an eco designed MR2 tanker under construction in Korea, totaling over 300,000 dwt. All the vessels are expected to be fully operational in 2015 which makes the fleet one of the youngest in the sector. For more information please visit www.tng.hr
